

I DEVELOP A SHARED VISION & PLAN

INSPIRE ACTION AND PERFORMANCE THROUGH A SHARED VISION AND PLAN

TACKV

Leaders have a desire to make something happen, to change how things are; to create something that no-one else has ever created before.

They can picture in their mind's eye what the results will look like even before they have started their project. Their clear image, through effective planning, pulls them forward and yet a vision is not enough to create movement or significant change in a company.

Leaders need to have an intimate knowledge of their people's dreams, hopes, aspirations, visions and values to enlist support.

We know from research that the biggest key characteristic that followers need from their leaders is inspiration.

Leaders cannot command commitment; they can only inspire it and people do not follow until they accept a vision as their own.
